RE: Ants

Owen did a thorough job with our ants and is very knowledgeable on what types of ants we had- we had 2 types - the common ant and the white footed ant which lives in walls. Ants are hard to get rid of and you often need more than one treatment. Owen was happy to come back and do this at no extra cost. He was very professional and we will definitely use him again. Earlier we had unsuccessfully tried to rid our ants with another company (##### Pest) and they were unable to cure the problem and also not as thorough or knowledgeable. I wouldn't hesitate to recommend Aces to anyone.
